CALCULATION OF BENEFITS AND LIFE COVERAGE

Khun Munkong, the 40 years old backbone of the family, is a permanent employee of a private company. He starts to realize the importance of financial planning but does not have sufficient time to study the investment information in details. **Khun Munkong wishes that his wife and children will live a happy and comfortable life every day and aims to create an emergency cash fund to meet unanticipated expenses.**

The insurance plan of **AIA Pay Life Plus (Non Par)** with a premium payment term of 10 years is one of the alternatives for Khun Munkong's financial planning as it involves fixed insurance premium and definite payment of benefit.

- It is the duty of the applicant to make the insurance premium payment. Collection of insurance premiums by the insurance agent is only a facilitation service.
- Life insurance is not a bank deposit and is subject to the restrictions on policy surrender. Surrendering the policy before maturity may result in the insured receiving returns less than the paid premiums.
- The English version is unofficial translation of the original Thai version for reference only and has no legal binding as the protective control.
